All horses are handicapped for the track condition listed.
These ratings are NOT to be used if the actual track condition changes.

- Focus on finding a **WIN-PRICE overlay!** A fair price on a live horse should be your goal! I like to say, "**win more money, not more races!**"
- **The favorite tends to be a poor wager** when it comes to making money, even if it is top-rated, but top-rated favorites often are good horses to use in an exacta box or quinella.
- **Harvest your WIN-PRICE overlays** whenever possible by making use of the PLACE wager! This is at the heart of building a good wager-- because longer priced horses tend to run 2nd about 2 times for every single WIN. PLACE bets and exacta reverse wheels are reasonable additions to your win wagers when playing horses with double-digit odds.
- This product is an excellent companion to Jerry J's Power Page!
